BUSINESS HOURS

Weekdays 7:30 a.m. to 12 noon; 1:00 p.m. to 5:00 p.m.
Saturdays 7:30 a.m. to 12 noon

(see below for special pick up arrangements)

CLOSED ON SUNDAYS AND HOLIDAYS

SHIPMENTS, PICK-UPS AND DELIVERIES

2% discount allowed on all orders called for at the nursery that do not require special preparation and/or loading.

Orders are shipped in order of receipt as readiness of stock warrants. Order early to be sure.

Preparation of orders can not be made without previous arrangements.

Orders placed in advance may be picked up on Saturday afternoon, Sunday or evenings upon arrangement.

Truck deliveries will be made at cost. Combined loads are economically pro rated according to space and distance. Schedules must be of our own choosing.

Flats of transplants or seedlings can be safely shipped via railway express and are usually forwarded in pairs, strongly crated and clearly labeled.

CERTIFICATES OF INSPECTION

All shipments are accompanied by a certificate of inspection by the State of New Jersey Department of Agriculture.

Shipments leaving the Jap. Beetle Quarantine Area are accompanied by a certificate of inspection by the United States Department of Agriculture attesting the stock shipped to be free of infestation.

Suggestions for container growing	2
Terms and conditions of sale	28

SUGGESTIONS FOR CONTAINER GROWING

The popularity of container grown ornamentals is increasing rapidly. Growth of container grown plants often exceeds that of field grown plants. Cost of handling is considerably less than when plants are balled and burlapped and most generally a greater volume of material can be handled in a given period. This is a distinct asset in the hectic period of Spring and Fall sales. Since container grown plants can be moved at any time, selling can be accomplished throughout the year. Those who sell container grown plants report increased customer satisfaction, fewer complaints and fewer replacements.

To assist you in initiating or improving your container growing program we list below some conclusions made from growers experiences and research studies.

1. Small potted liners, 1 or 2 years old, are best for canning. The 1 gallon container is the most popular size. Metal containers are receiving the most attention. Tar paper pots are also extensively used. Both are available through commercial channels.

2. Containers are best set in beds or areas from 4 to 6 feet wide and are placed directly on the soil can against can or separated depending on the size of the material contained.

3. Best medium proves to be equal parts of sand, soil and peat-moss.

4. Drainage holes are necessary in the bottom edge of the can, usually 4 or more. Commercial cans have sufficient drainage in most instances. Salvage food containers must be punched. Salvage cans will generally last only one year but their life may be prolonged by washing and then dipping in a water soluble asphalt emulsion.

Gravel or other material in the bottom of the container or mixed with the medium has shown no appreciable benefit.

5. Hand watering is the best method of moisture application. Daily watering is necessary during hot and dry periods. Overhead irrigation has been successful when carefully applied.

6. Dry fertilizer should be mixed with the medium at the rate of 1 lb. per 4 bushels. 6-10-4 has been successfully used. Frequent fertilization during the growing period is necessary. Liquid feedings are economical and considered the best practice. These should be applied 4 to 6 times a year, at a rate of approximately 1 quart to a 1 gallon container. Dry fertilizers may also be used and watered in. Application recommended is $\frac{1}{4}$ teaspoon per 1 gallon container. The frequent waterings will leach both nitrogen and potassium and these levels should be watched and corrected when necessary.

7. Frequent light pruning is recommended.

8. The medium need not be sterilized. However it is recommended that this should be accomplished with special emphasis on pre-emergence weed control. Similar treatment of the area where the containers are placed is also recommended.

9. Complete mulch (entire container plunged) is beneficial to almost all materials so far grown. Mulch may also be applied only to the top of the container but complete mulch is better.

10. Winter protection of lath or other suitable shading is highly beneficial.

NOTICE: The above suggestions and conclusions are offered for your information. While we agree with them we must advise that we can in no way be held liable for any failures you may experience as a result of their application. Your comments and further suggestions will be gratefully received and appreciated.

ALPHABETICAL LIST

25 AT 100 RATE, 250 AT 1000 RATE

All items sold are labeled according to variety and packed so as to retain identity.

A WORD ABOUT PRICE INCREASES

You will find that prices have been increased in some instances. We have taken this action with reluctance and not without serious thought and consideration and assure you that where made they were necessary in order to give you a better product and better service.

ABOUT SMALL ORDERS

You may note that we do not set a minimum amount for orders. Any order will receive our careful attention. Our experience has shown that most small orders result in subsequent larger orders.

each per 10 100 1000

ABELIA GRANDIFLORA - Glossy Abelia. An attractive evergreen shrub with graceful spreading habit. White, flushed lilac-pink, bell shaped flowers appear from late June until frost.

2¼" pot22½ .17½ .16

1yr 2¼" pot30 .22½ ..

ACER PALMATUM - Japanese Maple

—**OSHIO-BENI** - Bright clear red leaves all summer. Noted for its hardiness and good habit.

1yr 6-9", 2¼" pot, own root (May) . .90 .75 .70

2yr 8-12", 2¼" pot, own root (May) 1.15 1.00 ..

3yr 12-15", 3" pot, own root (May) 1.50 1.25 ..

—**ATROPURPUREUM** - Bloodleaf Jap. Red Maple. Small deciduous tree to about 25 feet. Leaves are blood-red, 5 lobed and deeply parted. Very graceful and ornamental.

grafts, 2¼" pot, 8-12" (May-June) .90 .75 .70

—**ATROPURPUREUM** - Bloodleaf Jap. Red Maple. Seedlings of parent plants which yield high percentage of red consistently. Off color plants are discarded from seed bed and again after potting.

2yr sdlg, 6-9", 2¼" pot (May)35 .30 .27

2yr & 3yr sdlgs, 6-9", 3" pot (May) .55 .45 .40

2 & 3yr sdlgs, 9-12", 3" pot (May) .. .65 .55 .50

—**BURGUNDYLACE** - Laceleaf Jap. Red Maple. Beautiful burgundy-red, gracefully lacinated striking a happy medium between the cutleaf and the bloodleaf. Habit is upright but it is more compact and does not grow as tall as the atropurpureum. Very hardy. Young plant has grown very well at Sardinia, N. Y. at high altitude withstanding 30° below zero.

graft, 2¼" pot, 8-12" (May-June) . 1.00 .85 ..

—**DISSECTUM** - Green Cutleaf Jap. Maple.

graft, 2¼" pot, 8-12" (May-June) . 1.00 .85 ..

—**PURPUREUM** - Red Cutleaf Jap. Maple.

grafts, 2¼" pot (May-June) 1.00 .85 ..

ACER PLATANOIDES COLUMNARE (ASCENDENS) -

Pyramidal Norway Maple. An impressive maple, narrow and upright in habit. Valuable for street planting as well as accent, background and screening.

grafts, 6-10", 2¼" pot (May) 1.00 .85 ..

1yr graft, 6-10", 3" pot 1.25 1.10 ..

ACER SAC. MONUMENTALE - Sentry Sugar Maple. The most majestic of all the sugar maples with its tall, narrow, full habit making it supreme for all plantings. Glorious in its range of autumn colors.

grafts, 6-10", 2¼" pot (May) 1.00 .85 .80

1yr graft, 8-12", 3" pot 1.25 1.10 1.00

ANDROMEDA - See Pieris, Leucothoe

HARDY AZALEAS

We offer only **hardy** varieties that have been tested over a period of years. Our temperatures go below zero every winter. In 1954 we had 20 below.

Only strong cuttings are taken and rooted. In the fall they are potted or flatted and placed in greenhouses where they grow through the winter into fine Spring Liners. More important — they grow because they want to and have everything they need. We do not force them chemically. You will get a good hardy plant ready to take the abuse of transplanting without set-back.

BARBARA

(Azalea kaempferi Fedora - selected seedling)

★ Not Patented

- | | |
|------------------------|----------------------------|
| ★ Bright rose-pink | ★ Later than Fedora |
| ★ Large single trumpet | ★ Large, glossy dark green |
| ★ Hardy | ★ Compact, medium to tall |

Barbara has been a favorite from the start. Somehow we knew she would surpass Fedora and that is claiming a lot. Both the larger and brighter flower and the deeper green glossy foliage make Barbara an outstanding azalea.

2¼" pot, Spring Liners \$4.25 per 10, \$35.00 per 100

NANCY

(Azalea Kaempferi Fedora x Kurume coral bells)

★ Not Patented

- | | |
|---------------------------|---------------------------|
| ★ Deep pink, hose in hose | ★ Large dark green leaves |
| ★ Large frilled trumpets | ★ Compact, medium height |
| ★ Hardy like Fedora | ★ Good forcer |

Nancy combines the hardiness of Fedora with the fine forcing characteristics and customer appeal of Coral bells. What more can we say.

2¼" pot, Spring Liners \$4.25 per 10, \$35.00 per 100

WENDY

(Azalea Kaempferi Fedora x Ledifolia alba)

★ Not Patented

- | | |
|----------------------|------------------------|
| ★ Large single white | ★ Hardy - young or old |
| ★ Low and compact | ★ Pleasant rich green |

A good hardy white similar to non-hardy ledifolia alba. One year old plants in open field beds (lath shade 8 ft. overhead) with no wind protection suffered no splitting or bark peeling and bloomed better than we expected for such a hard open winter.

2¼" pot, Spring Liners \$4.25 per 10, \$35.00 per 100

IMPORTANT NOTICE: You may now total varieties of one grade and group (Gable, Kaempferi or Vuykiana hybrids) to earn the 100 or 1000 rates. Not less than 10 of a variety.

each per 10 100 1000

BENI-KIRISHIMA. Very late large double orange-red on low compact plant with dark green evergreen foliage.

2¼" pot, Spring liners25

AZALEAS (Cont'd)	each per	10	100	1000
BUCCANEER - Mid, tall. Very large single bright orange-red. Spreading habit. (Glenn Dale)				
2 1/4" pot, Spring liners25	.20	..
CALENDULACEUM - Flame Azalea. Reddish-orange and orange-red flowers appear about the time leaves appear. Very hardy.				
Flats of 60 transplants, 1yr @ \$9.00				
GABLE HYBRIDS. Joseph Gable's hardy evergreen hybrids. Proven hardy to well below zero. We offer below only the hardiest and the most beautiful.				
2 1/4" pot, Spring liners30	.25	.22 1/2

Flats of 60 Spring liners		12.50	11.50	11.00
-CAMPFIRE (F3G) - Late, medium. Blood-red, hose in hose. Very showy.				
-CAROL (B8G) - Early, medium. Very bright crimson pink, hose-in-hose, compact-spreading.				
-CAROLINE GABLE (96G) - Early, medium-tall. Brilliant pink, hose-in-hose. Good foliage.				
-ELIZABETH GABLE (21G) - Mid, medium, Large single rose-pink. Deep green foliage. Extremely hardy.				
-HERBERT (47G) - Early, medium. Dark crimson-purple, semi-double, large & ruffled. Super hardy.				
-GABLE'S SCARLET (C4G) - Mid, medium. Bright scarlet-pink, hose-in-hose, ruffled florets.				
-LA LUMIERE (100G) - Early, tall. Single flame red. Grows well in shade.				
-LINDA ANN (C2G) - Mid, medium. Light pink, double. Makes attractive plant as well as floral display.				
-LORNA (C8G) - Mid, low. Deep pink, fully double flowers cover a low, compact plant and last long without fading. An excellent Mother's Day azalea.				
8-10" XXX, budded, B&B	1.75	1.50	..	
10-12" XXX, budded, B&B	2.25	2.00	..	
12-15" XXX, budded, B&B	2.75	
-LOUISE GABLE (13G) - Late, medium. Large semi-double, salmon-pink. Very hardy. One of the best.				
-MARYANN (38G) - Mid, medium. Large, clear double pink. Very hardy and a good habit.				
-MARY F. HAWKINS (C3G) - Mid, tall. Hose in Hose deep pink. Vigorous grower.				
-MILDRED MAE (69G) - Early, medium. Lavender spotted red in throat. Very hardy and very attractive. Semi-evergreen.				
-POLARIS (118G) - Mid, medium. Pure white hose-in-hose. 2 1/4" pot only - no flat transplants this season				
-PURPLE SPLENDOR (C1G) - Mid, medium. Large, frilled crimson-purple of a rich shade. Very hardy. 2 1/4" pot only - no flat transplants this season				
-ROSEBUD (B5G) - Mid, low (dwarf). Fully double soft rose-pink blossoms that closely resemble small roses especially when opening. Dwarf, compact habit that will not dwarf the smallest garden. Another Rosebud of looser habit, faster growth and with larger flowers is on the market. Ours is the original. Our stock plants came directly from Mr. Gable.				
-ROSE GREELEY (D3G) - Early, medium. Large pure white, hose-in-hose. Good foliage, compact and hardy. One of the best whites on the market.				
HAKATA RUBRA - Red, late, dwarf, spreading.				
2 1/4" pot Spring Liners30	

AZALEAS (Cont'd)

HINO-CRIMSON - New bright crimson-red. Single flowers in clusters completely cover the low spreading plant. Flowers do not fade even in the brightest sun. Foliage is dark green and glossy, turning attractively bronze in fall and winter. Completely hardy, does not bud blast easily. Excellent for forcing and landscape. Shows occasional blooms during summer and fall. We developed and introduced this variety to replace hinodegiri which it is doing rapidly.

HAMAMELIS JAP. ZUCCARINIANA - Lemon Japanese Witch-Hazel. Distinctively beautiful shrub with lemon-yellow ribbon-like flowers that enhance the late wintry landscape after just a few days of warmer weather.				
grafts, 2¼" pot, 8-12"80	.65	..

HAMAMELIS MOLLIS - Chinese Witch-Hazel. Every garden should have this large beautiful shrub with its golden yellow flowers which appear in late winter. Very showy and fragrant. Good for cutting. One branch, in flower, will send fragrance throughout a whole room.				
grafts, 2¼" pot, 8-12"80	.65	..
1yr grafts, 3" pot, 12-15"	1.20	1.00	..
2yr grafts, 3" pot, 12-18"	1.50	1.25	..

ILEX - HOLLY

ILEX AQUIFOLIUM - English Holly. Dark green lustrous foliage with large bright red berries. Superior to American Holly in appearance but not as hardy.				
Flats of 35 @ \$14.00 per flat				
2¼" pot55	.45	..

—MALE. A male of the English holly to pollinate the female varieties.				
Flats of 35 @ \$14.00 per flat				
2¼" pot55	.45	..

—PYRAMIDALIS (FEMALE) - Pyramidal English Holly. An upright pyramidal form with dark glossy green leaves and bright red berries. Hardier than most other varieties.				
2¼" pot55	.45	..

ILEX (cont'd) each per 10 100 1000

(rtd ctgs of crenata varieties are available now thru June)

CRENATA - Japanese Holly. Very popular evergreen. The species when grown from seed differ widely in foliage and habit and hardiness. Most nurseries propagate with cuttings taken from selected seedlings. We have so selected a type which is commonly accepted as the desirable form of crenata and offer only these to the trade.

rooted cuttings, 4-6"12 .09 .08½

2¼" pot, 5-7"25 .20 .18

Flats of 60 transplants, 5-7" @ \$10.50, 5 up @ \$9.50

—CONVEXA (BULLATA) - Convexleaf Jap. Holly. Among the best of the Jap. hollies having a low, spreading habit that is excellent for hedges, specimens, foundation planting and many other uses. The round, curved, hollowed evergreen leaves are very attractive. Berries are black.

GREEN-THUMB HOLLY

(Ilex crenata green-thumb)

★ Not Patented

★ Hardy

★ Compact

★ Low-spreading

★ Self-branching

★ Rapid growth while young

★ Light, bright green

★ Shapes up quickly

Here is a holly that has its own "Green Thumb" built right in. It grows easily under most conditions, roots nicely, branches very well and pretty well takes care of itself with moderate care. A natural for the Cash and Carry and Mail Order trades and for the busy landscaper.

2¼" pot

\$4.25 per 10, \$35.00 per 10

—HELLERI - Heller Jap. Holly. Very dwarf, compact, spreading plant. Excellent for fronting borders, edging, hedges and planting boxes. Small leaves and short twiggy growth make it very attractive.

rooted cuttings, 2-4"13 .10 .09½

Flats of 75 transplants @ \$13.00, 5 up @ \$12.00

## TAXUS - YEW

The Taxus or Yew has become one of the most popular evergreens of our times. They thrive in most any soil except real wet with poor drainage. They are immune to most insect pests and diseases. The cultivated species and varieties offer a selection of almost any desired shape, or form, male or female, light green to dark green, fast or slow growing which can be used for hedges, screens, specimens, foundation plantings, accent, planting boxes and many other ways. This is one plant that you certainly must grow.

# VERTICAL YEW S

## — TALL — NARROW — HARDY —

Developed to replace troublesome junipers, the rapidly overgrowing arborvitae and the much less hardy Irish Yew. Use for accent, specimens, background. Excellent for hedges as it forms a compact, tight, narrow hedge - a living wall.

**FLUSHING - Flushing Yew.** Large, sturdy needles and strong growth make Flushing a rich, dark green column. Grades below - C, D, E, F

**GRANDIFOLIA - Bigleaf Yew.** Strong sturdy plant with long dark green needles. Rich and unusual. Grades below - A, B, C, D, E, F

**PILARIS - Pillar Yew.** Large dark green gracefully curved foliage. Dense, compact column. Really beautiful. Grades below - A, B, C, D, E

**PYRAMIDALIS - Pyramid Yew.** Fast growing with vertical branches and graceful foliage. A rich, showy, full bushed pyramid. Grades below - A, B, C, D, E, F

**ROBUSTA - Obelisk Yew.** Similar to pyramidalis but with heavier branches and habit. Needles are large and glossy. Grades below - A, B, C, D, E, F, G

**STRICTA - Narrowbush Yew.** Compact, slower growing plant with shorter medium green needles. Very useful. Grades below - A, B, C, D, E, F, G

**VIRIDIS - Grassgreen Yew.** Year-around fresh green color. Strong sturdy growth of vertical branches in slender habit make it one of the best. Grades below - A, B, C, D, E, F, G

2¼" pot, 1yr .....	.30	.25	.22½	

## LANDSCAPE MATERIAL

On the following pages is listed some truly fine material - mostly stock plants in excess of our requirements. By reason of this constant pruning and extra fine care each plant is compact, well shaped and healthy. Most of them can be considered as specimens. We sincerely invite your inspection.

Orders must be placed sufficiently in advance of pick-up to permit digging as each order is custom dug. Truck deliveries can be arranged at cost only. Pick-up discount does not apply to landscape material.

# TERMS AND CONDITIONS OF SALE

25 AT 100 RATE, 250 AT 1000 RATE

Minimum 10 of one grade

---

**PRICES** quoted herein cancel those in all previous lists, are subject to change without notice and are quoted to members of the trade only. Proof of such other than statement alone must be established.

**TERMS** to those with established credit are 2%, 10, net 30 days from date of shipment or invoice which ever is later, packing charged at cost. All others are required to remit in full (**no discounts**) with the order for which we in turn will pack free of charges or to remit 50% (**no discounts**) with the order, the balance plus packing charges, to be paid C. O. D.

(Please note:) Prepaid orders earn their discount in the form of packing without charge. No further discounts other than special offer discounts are acceptable.

All orders picked up at the nursery that do not require special loading or preparation will be permitted a discount of 2% from the net amount of the order.

To defray costs of carrying accounts beyond the stipulated term period we will, without required notice of any kind, charge such accounts at the rate of 1% per month on all overdue balances.

**RATES:** 10 to 24 of one species, variety and grade are priced each at the 10 rate, 25 or more at the 100 rate when listed and 250 or more at the 1000 rate when listed. Unless otherwise stated not less than 10 of any one species, variety and grade will be sold.

**SHIPMENTS** travel at the risk and cost of the purchaser and will be forwarded via railway express. Requests for parcel post shipment must be accompanied by sufficient postage (usually 10% - balance will be refunded). Truck deliveries at cost gladly arranged. Orders may be picked up at the nursery by previous arrangement only.

As the stock permits, orders will be shipped in order of receipt. We can not guarantee prompt shipment of late orders. Order early.

**CLAIMS** for error or count must be made in writing within 10 days of receipt of shipment. Inspect damaged or overdue containers at time of receipt and obtain report from or initiate claim to the express agent. We cannot be responsible for any damage due to mishandling or delay enroute but offer every assistance in making claim to the forwarder. If you have a complaint, please let us hear from you. We want satisfied steady customers.

**GUARANTEE:** We, John Vermeulen & Son, Inc., warrants to the extent of the purchase price that the nursery stock sold is true-to-name and as described within recognized tolerances. Seller gives no other or further warranty, express or implied, and will under no circumstances be liable for more than the invoice value at the time of purchase.

**NOTICE:** All stock is offered subject to prior sale. Orders will be accepted in order of receipt and only on condition that they may be voided due to crop failure, inclement weather, drought, fire, frost, strike, etc. We reserve the right to delay shipments to the best interest of the plants.
